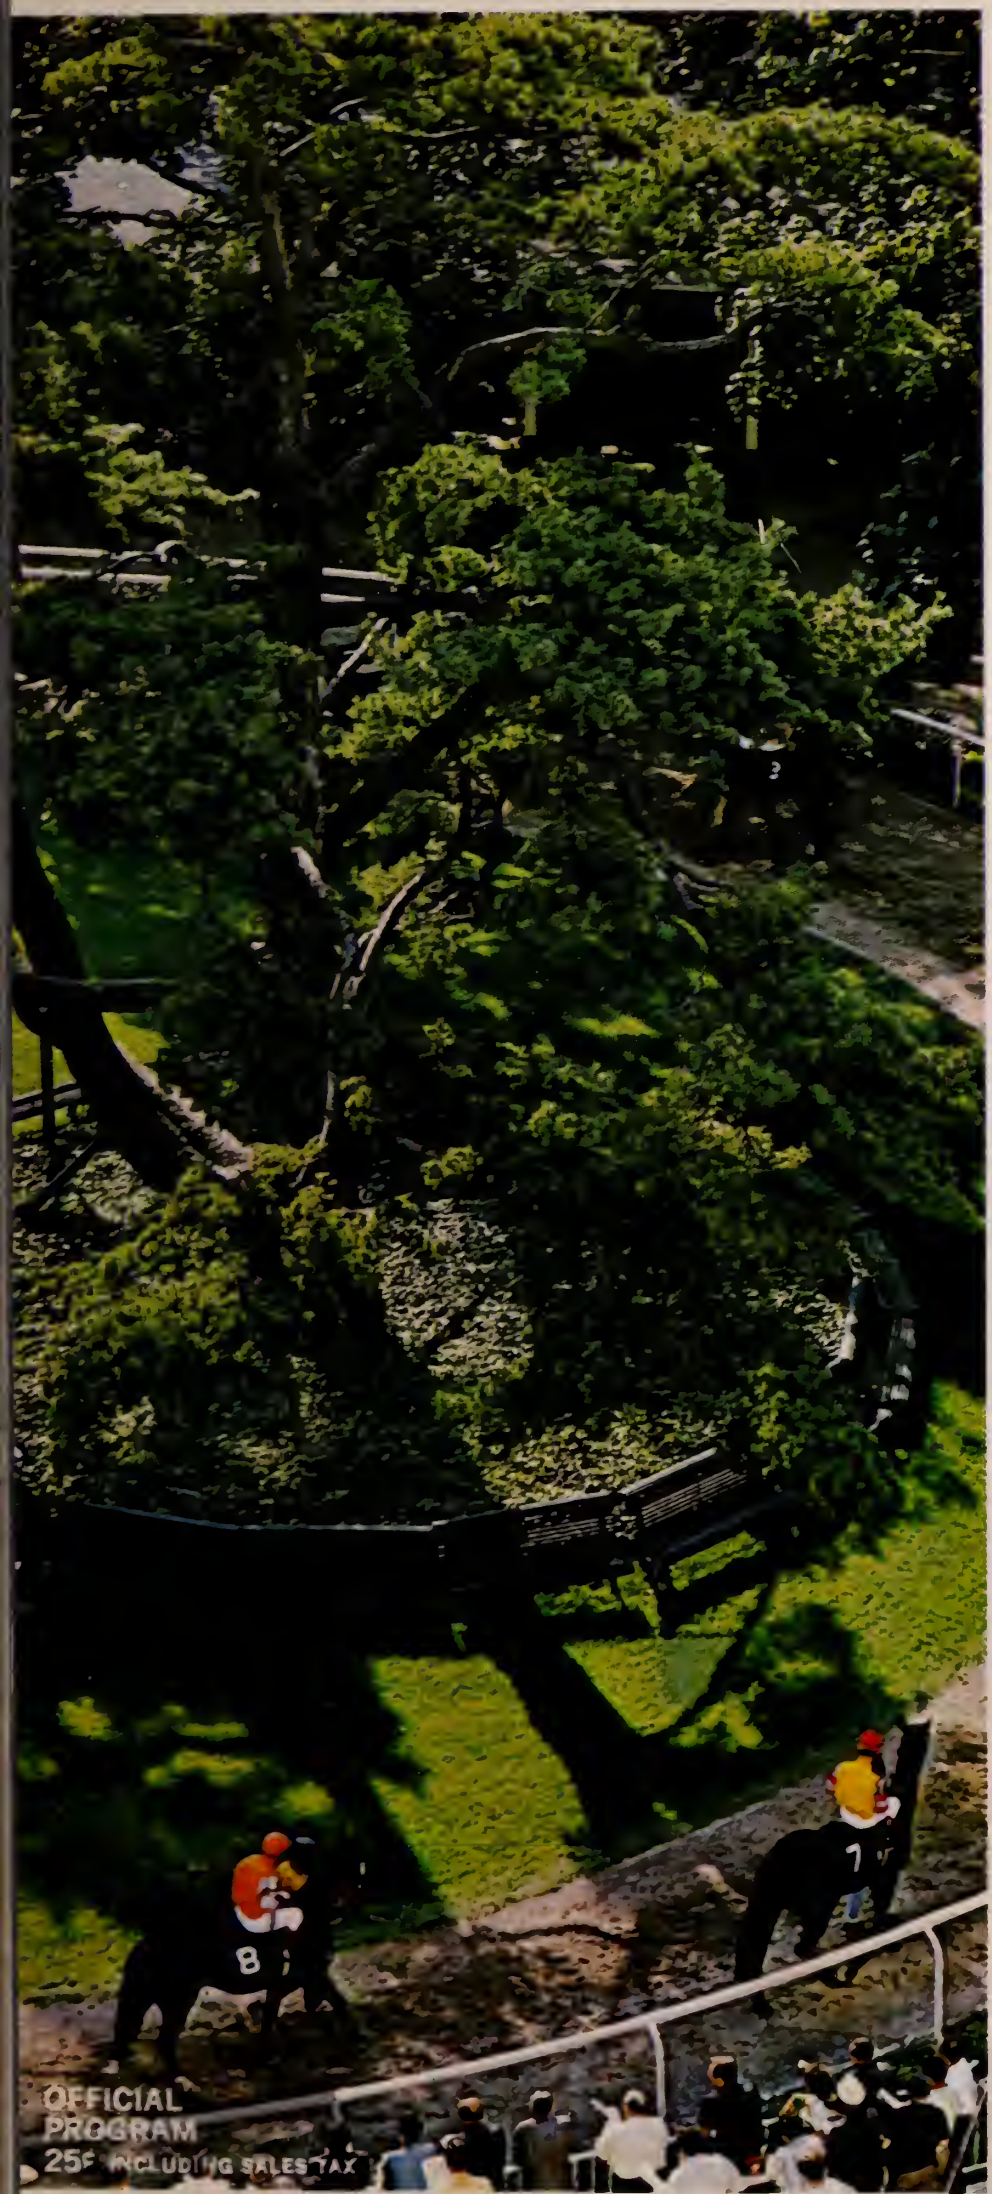
COMPLIMENTARY



All races are governed by the

RULES AND REGULATIONS

of the

NEW YORK STATE RACING COMMISSION

GENERAL RULES

Final decisions of the Racing Officials upon the running and results of races shall be conclusive.

Rulings of the Stewards of the Meeting with regard to the award of purse money made after the result has been declared "Official" shall in no way affect the mutuel pay-off.

Payment on winning tickets shall be made only upon presentation and surrender of such tickets. Such tickets must be presented for payment **before April 1st** of the year following the year of purchase.

Hold pari-mutuel tickets until result is "Official." When a result is "Official," that word shall be flashed on the Result Board and shall signify that the placing of the horses is final in so far as the pay-off is concerned.

In the event of a foul being claimed, the word "Inquiry" shall be flashed forthwith on the Result Board and announcement thereof made on the public address system.

The Stewards are vested with the power to determine the extent of disqualification in case of fouls. They may place the offending horse behind such horses as in their judgment it interfered with, or they may place it last, and they may disqualify it from participation in any part of the purse.

Mutilated Pari-Mutuel tickets or those whose validity is questioned, shall be submitted to the New York State Tax Commission for inspection, and the ruling of said Commission thereon shall be final and conclusive.

The Pari-Mutuel Machines will be locked by electrical control immediately upon the official post-time of each race.

The Association is not responsible for ticket sales not completed before the machines are locked.

Bookmaking, or betting other than through the Pari-Mutuel system is strictly prohibited. Bookmaking is a misdemeanor under the Penal Law, and is punishable by fine or imprisonment or both.

Minors are not permitted to purchase Pari-Mutuel tickets.

Refunding money. If a horse be excused from racing for any reason whatsoever after the betting thereon has begun, the money bet on that horse shall be refunded; except that when the horse is part of an entry or the "field," there shall be no refund, provided that the entry or the "field," as the case may be, has at least one actual starter.

If it be determined by the Stewards of the Meeting that a horse has been prevented from racing because of the failure of the stall door of the starting gate to open, the money bet on that horse shall be refunded; except that when the horse is part of an entry or the "field," there shall be no refund, provided that the entry or the "field," as the case may be, has at least one actual starter.

No refunds of money paid for Pari-Mutuel tickets to be made as directed by the Rules and Regulations of the Commission, shall be made except upon the presentation and surrender of such tickets.

Photo Finish. When "PHOTO" appears on the Result Board, there will be a short delay in posting the "Official" result to allow the Judges to inspect photograph of the finish. The camera is used as an aid to the Placing Judges in arriving at a decision.

The "Field." When more than twelve (12) horses, representing twelve (12) separate interests, are starters in a race, all horses in excess of eleven (11) interests shall be grouped in the betting as the "Field."

In all races, except SWEEPSTAKES, with five or more separate entries which start, Racing Associations shall provide win, place and show pools; in all races with four (4) separate entries which start, they shall provide win and place pools; in races of three (3) or two (2) separate entries which start, they shall provide only a win pool; and pari-mutuel tickets shall be sold accordingly; provided, however, that in sweepstakes with less than four (4) separate entries which start, Racing Association may, at their option, provide that there shall be no betting; and in such cases an additional race with betting shall be added to the program if feasible.

In the event of an error in calculations of pay-off prices which result in underpayments to the public, the aggregate of the underpayments made before such correction is posted shall be paid into the corresponding pool of the next race or races in such amounts as may be determined by the Steward of the Commission and a designated representative of the association conducting the meeting.

POSITIVELY NO TICKETS EXCHANGED.

APPRENTICE ALLOWANCES

Asterisks (✲) (✲✲) (✲✲✲) or a dagger (+) preceding the weight assigned to a horse designate an apprentice allowance for the jockey. Under the rules of the New York State Racing Commission, the following allowances may be claimed for an apprentice:

Three asterisks (✲✲✲) denote a ten pound allowance which the apprentice may claim until he has ridden five winners.

Two asterisks (✲✲) denote a seven pound allowance which the apprentice may claim until he has ridden an additional thirty winners, or an overall total of thirty-five winners.

One asterisk (✲) denotes a five pound allowance. Should the apprentice reach his thirty-fifth winner prior to one year from the date of riding his fifth winner, he may claim an allowance of five pounds until the end of that year.

The dagger (+) denotes an allowance of three pounds. This three pound allowance may be claimed for one year following the completion of the other allowances when the jockey is named on a horse either owned or trained by his original contract employer.

PHOTO FINISH

The development of the photo finish camera has been one of the great progressive steps in horse racing during the past three decades and has furnished a bedrock of public confidence in the sport.

At Aqueduct, Belmont Park, and Saratoga, as well as at 51 other American tracks, the Jones Precision Camera annually photographs the finishes of some 34,000 races. In about 20,000 cases, or 60 per cent of the total, the placing judges call for the photo to help them determine the order of finish.

From the time that the word "PHOTO" appears in lights on the tote board, it takes approximately 25 seconds to supply the judges with a projection of the photo. After they have studied it and determined the order of finish, the photo is shown to the public on the many closed circuit TV screens at the New York tracks.

The Jones camera used at the NYRA tracks is neither a motion picture nor conventional still camera. Called an "optical strip" camera, it is designed specifically to photograph finishes on 35mm film through a fixed vertical opening 1/100th of an inch.

The right side of the aperture coincides immutably with the finish line as fixed by a surveyor and the camera is bolted to its position at the top of the grandstand. The camera never moves. The film does, drawn across the aperture at the rate of from two to three inches per second. No horse can be photographed until it reaches the finish line, and the film strip keeps moving until the last in the field has done so.

Only objects in motion, i.e., the horses, will photograph. The stationary track surface is recorded as continuing horizontal lines which insure a uniform background. A mirror at the inner rail reflects the inside view of the horses.

Physically, the finish line is a black wire stretched overhead across the track. It is invisible in a photo but is represented by a white line superimposed on the photo. This white line coincides accurately and constantly with the finish line and is confirmed for further precision by matching calibration figures on the top and bottom edges of the film strip.

HORSESHOES

The type of shoes worn by each horse is available before each race on the information board in the infield.

White—Aluminum shoes. **Yellow**—Steel shoes.
Red & White—Mud caulks on aluminum shoes.
Red & Yellow—Mud caulks on steel shoes.
Green & White—A change to aluminum shoes.
Green & Yellow—A change to steel shoes.
Red: Bar shoe on. **Green:** Bar shoe off. **Orange:** Plain shoe.

FOUL CLAIMS

In the event of an inquiry or claim of foul the word "INQUIRY" shall be flashed forthwith on the Result Boards and announcement thereof made on the public address system. The number of the horse (or horses) on which inquiry is contemplated will appear in BLINKING lights on the Result Boards.

GENERAL INFORMATION

★ Reserved Seats

Grandstand and Clubhouse reserved seats are sold at the Reserved Seat office located on the third floor, between the Grandstand and Clubhouse.

Grandstand reserved seats are sold for all days of the race meeting. Clubhouse reserved seats are sold for Saturdays and holidays only.

Price of all reserved seats is $1.50 tax included. Advance reservations may be made by mail if check or money order (not cash) is included with request. Address RESERVED SEATS Aqueduct, P. O. Box 90, Jamaica, N. Y. 11417, stating date desired.

For all reserved seat information phone: Area Code 516 488-1820.

★ Parking

Parking is handled by the Olympic Parking Service at a fee of $1.00 for general parking. Preferred parking is also available for an additional dollar. All tipping is strictly prohibited and free emergency service is provided. Courtesy bus service is provided for both grandstand and clubhouse patrons from all parking areas.

MOTORISTS ARE REQUESTED TO PLEASE LOCK THEIR CARS AND REMOVE THE KEYS.

★ First Aid Rooms and Hospital

The main First Aid Hospital is located between the Grand stand and the Clubhouse in the service area beneath the stands. The First Aid Hospital can be reached by using the elevator going to the lowest level or by using the staircase located between the columns numbered 30 and 31.

An additional First Aid Room available is located on the ground level of the stands just west of the glass-enclosed horse walkway.

★ Public Information Booths

A general information booth, to assist in any inquiry except those involving mutuel transactions, is located in the Grandstand on the Main Floor near the finish line. **Mutuel information booths** are located: **In the Grandstand** at Cashier Window 20 on the First Floor; at Cashier Window 240 on the Second Floor; at Cashier Window 370 on the Third Floor: **In the Clubhouse** at Cashier Window 523 on the First Floor and Cashier Window 590 on the Second Floor.

★ Barber Shop

For your convenience a barber shop is located on the ground level, at the center rear of the stands.

EXACTA BETTING AT AQUEDUCT

Starting next week at Aqueduct there will be Exacta wagering on the Fifth and Eighth races every day.

The Exacta is a wager in which you must pick the two horses which will finish first and second in a race in that exact order. For example, if your selection for the fifth race was Number 5 to win and Number 3 to finish second, you would go to an Exacta window any time after the second race and ask for 5-3. Only if the order of finish for the fifth race as officially posted showed No. 5 the winner and No. 3 second would you have a winning Exacta.

The Exacta is a separate money pool in its selected race as are the win, place and show pools for that race. Exacta tickets may be purchased in $2, $10 and $20 denominations. The windows and the tickets are color-coded for your convenience with the $2 being Yellow, the $10 Green and the $20 Blue.

Special Groups

Arrangements may be made for Special Groups to attend the races — Service Clubs, Business Groups, Conventions, etc. Write Special Groups, Aqueduct, P. O. Box 90, Jamaica, N. Y. 11417. Phone 641-4700, Ext. 208.

★ Program Guides

The start and finish of each race is marked on the small track diagram included on the page of each race. The distance of the event is printed inside the diagram.

Teletimer fractions are posted during the running of each race on the two end tote boards. As the leading horse breaks the electric eye beam at fractional points in the race, the time is flashed on the boards. The final teletiming is confirmed by the official timer before being posted on the official boards.

Program numbers of the leading horses are flashed on the result boards during the early stages of each race. The numbers appear where the final placings are put up on the tote boards and are taken down when the horses enter the stretch.

THOROUGHBRED RACEHORSE OUTSPEEDS GREYHOUND

Thoroughbreds can outspeed the fastest racing greyhounds at a distance as short as three-eighths of a mile. Record time for three-eighths at a representative Boston greyhound track is I'll Get There's 37.54 seconds. World Thoroughbred record for the distance is Atoka's 33½ seconds, set at Butte, Mont., under 109 pounds in 1906. Thoroughbreds of average quality often work three-eighths faster than the greyhound record.

THOROUGHBRED RACE HORSE TOPS FOR STAMINA

The race horse can carry his speed further than any other land animal, and the burden of a rider stamps his stamina as all the more remarkable. Sotemia, under 119 pounds, set the world record of 7:10 4-5 for a four-mile race at Churchill Downs in 1912. This was at the rate of 33.4 miles per hour—only 5.6 mph slower than Dr. Fager's world record of 39 mph for a mile.

PREVIOUS DAY'S RACES ON TRACK'S TV

The entire previous days' program of nine races will be shown each day at 12:15 p.m. on the track's closed circuit color television sets located throughout the stands.

DAILY DOUBLE RULES

The Daily Double is not a parlay and has no connection with or relation to the pool shown on the totalizator board.

In order to win a Daily Double, it is necessary for the purchaser of a Daily Double ticket to select the winners of each of the two races specified for the Daily Double. If either of his selections fails to win, his contract is voided, except as hereinafter provided.

The pay-off shall be posted after the pool closes and before the race completing the Daily Double has been run, except in the event of a dead heat in the first half of the Daily Double, when the posting of the pay-off may be deferred until the race completing the Daily Double has been run.

The net pool divided by the amount wagered on the winning combination determines the pay-off per dollar, including profit and wager.

In the event of a dead heat either in the first race or second race of the Daily Double, two (2) winning combinations result. The amounts wagered on both winning combinations are deducted from the net pool to determine the profit. This profit is divided in half, and the halves, in turn, divided by the two amounts mentioned above. This determines the profit per dollar, to which is added the wager.

In the event of a dead heat in both races of the Daily Double, four (4) winning combinations result. The amounts wagered on these four (4) winning combinations are deducted from the net pool to determine the profit. This profit is divided into four (4) equal parts, and each part, in turn, divided by the four (4) amounts mentioned above. This determines the profit per dollar, to which is added the wager.

If no daily double ticket is sold combining the winners of the first and second races, or the second race is cancelled or declared "no race," the net pool shall be distributed to holders of tickets designating the winner of the first race, as in a win pool and the daily double shall terminate.

If no daily double ticket is sold designating the winner of the first race, or the first race is cancelled or declared "no race," the daily double shall be declared off and the gross pool refunded.

Should any horse in the first or the second race of the daily double, not coupled with a starter, be scratched or excused by the stewards, before the running of the first race, all money wagered on combinations including such horse shall be deducted from the daily double pool and shall be refunded upon presentation and surrender of mutuel tickets sold thereon.

Should any horse in the second race of the daily double, not coupled with a starter, be scratched or excused by the stewards after the running of the first race of the daily double, a consolation pool will result. In such case, all tickets combining the scratched or excused horse with the actual winner of the first race shall become consolation tickets and shall be paid a price per dollar bet determined as follows: the net daily double pool shall be divided by the total purchase price of all daily double tickets designating the winner of the first race of the daily double and the result obtained shall constitute the consolation price per dollar bet. The amount set aside for these consolation pay-offs will be deducted from the net daily double pool.

PARI-MUTUEL POOL CALCULATIONS

In any race, the WIN, PLACE, SHOW and DAILY DOUBLE pools are treated separately and calculated independently of each other.

From each pool there shall be deducted sixteen per cent, the remainder being the net pool for distribution less the breaks.

WIN POOL. The net pool divided by the amount wagered on the horse finishing first, determines the pay-off per dollar, including profit and wager.

(a) When two (2) horses finish first in a dead heat, the money in the WIN POOL is divided the same as in a place pool calculation.

PLACE POOL. The amounts wagered on horses finishing first and second are deducted from the net pool to determine the profit. This profit is divided in half, and the halves, in turn, divided by the two amounts mentioned above. This determines the profit per dollar, to which is added the wager.

SHOW POOL. The amounts wagered on the horses finishing first, second and third, are deducted from the net pool to determine the profit. This profit is divided into three (3) equal parts, and each part, in turn, divided by the three (3) amounts mentioned above. This determines the profit per dollar, to which is added the wager.

When only two horses finish, the show pool, if any, shall be distributed the same as in a place pool. When only one horse finishes, the place and show pools, if any, shall be distributed the same as in a win pool. In any race in which no horse finishes, all money wagered on the race shall be refunded upon presentation and surrender of pari-mutuel tickets sold thereon.
